# OpenNet Africa

# The Research

- January 2010 – April 2014 developments (policy and action) related to internet freedoms in East Africa
- Method
  - Policy analysis
  - Document reviews
  - Technical audits
  - Interviews
  - Workshops
  - Online discussions

# Findings: ICT Growth in East Africa

Telephone and Internet Penetration  
(% of the population)

- Mobile Money
- Infrastructure development
- Academia and Private Sector Innovation
- Government Initiatives to promote access and use including for marginalised groups
- Liberalised sectors (except Ethiopia)

# Findings

- Paucity literature on the subject
- Long existent and vague laws
- Recent legislations curtailing constitutional rights
- Government control over the internet and associated technologies through interception, monitoring and surveillance (including extra legal means)
- Numerous incidents that infringe on online freedoms
- Few actors promoting internet freedoms
- Low levels of user skills and knowledge about online safety and ethics
- Intermediary liability
- Lack of data protection and privacy laws
- Access to information denied

# Notable Country Developments

## Burundi

- 2013 Amendments to Regulatory law – oversight of internet writings and monitoring ethics of online news agencies
- 2013 Press Law - proscribes dissemination of information that undermines national security, incites civil disobedience, serves as propaganda for enemies or insults the country's president.
- 2013 Press law – disclosure obligation of online publishers
- May 2013 – 30 day ban on online commentary at [www.iwacu-burundi.org](http://www.iwacu-burundi.org)
- January 2014 – ARCT notice against SMS and anonymous calls

## Ethiopia

- 2012 Telecom Fraud Offences Law
- 2009 Anti Terrorism Proclamation
- 2013 Information Network Security Agency (INSA) proclamation and National Intelligence and Security Service (NISS) establishment – Internet Control, Censorship, Intelligence gathering and surveillance
- 2013 blocking tests – 62 blocked websites
- April 2014 – arrest of six bloggers and three journalists

# Notable Country Developments

## Kenya

- Regulations on Monitoring Hate Speech – Online and Bulk SMS
- 2013 blocking of mashada.com for failure to moderate hate speech
- March 2013 – hunt for 14 bloggers for posting hate speech online. One charged with posting “annoying statements”
- National Intelligence service Act, 2012 – allows for interception

## Rwanda

- Monitoring of online Media during Genocide period
- 2013 Interception of Communication Law – Monitor citizens voice and data communications (including with equipment not facilitated by service providers)
- Progress – 2013 laws on media and access to information, draft amendments to genocide law
- April 2014 – Phone, Whatsapp and Skype messages tendered as evidence in a treason case
- Intimidation over social media

# Notable Country Developments

## Tanzania

- Colonial laws
- September 2013 – Newspaper shutdown (print and online)
- August 2013 – TCRA social media campaign against hate speech
- 2011 - Alleged attempt at cloning JamiiForum – to control content

## Uganda

- 2013 – Government plans to set up a “social media monitoring centre”
- 2014 – Anti Homosexuality Act
- 2014 – Anti Pornography Act
- 2013 CIPESA/Citizen lab test – no evidence of content blocking

# Going Forward

- Fill the information void
- Lobbying and advocacy
  - Amendments to laws and regulations
  - Enactment of laws to mirror technology
  - Commit to full implementation of progressive laws
- Skills building
- Increased oversight and transparency
- Encouragement of conversation
